

SharkHack 2019 Workshop Schedule

DAY	TIME	NAME OF PRESENTER	TITLE OF WORKSHOP	DESCRIPTION
FRIDAY	6:00 pm – 7:00 pm	Joe Veilleux	Resume and Technical Interview Workshop	Always wanted to know what a technical interview is like? Joe has got you covered! You will get the chance to see a technical interview in action and see live feedback. Plus, bring your resume and get some feedback on that as well!
FRIDAY	7:00 pm – 8:00 pm	Victoria Hayes	Intro to Mobile Development with Xamarin	This will be a demo of Xamarin Forms, which is a C#-based framework for mobile development that can create Android, iOS, and Windows phone applications from a single code base.
SATURDAY	9:30 am – 11:00 am	Anton Nielsen	Build an IoT Device in 90 Minutes	In 90 minutes each participant (or team) will create an IoT thermostat, a REST service to communicate with the device, and a web application to control it.
SATURDAY	11:00 am – 12:00 pm	John Zucco	The Evolution of Networking to the Cloud	Ever wondered what mysteries lie beneath the cloud? In this workshop, John will take us along the journey of network technologies.
SATURDAY	12:00 pm – 1:00 pm	SharkHack Team and Others	Women in Tech Panel	Join us for lunch in the main area (LKP) to listen to a panel talk about their experiences and journeys in the tech industry. Do you have burning questions on how to survive in a male dominated industry? Well we have a great group of people lined up to answer any of your questions!
SATURDAY	1:00 pm – 2:00 pm	Catherine Dumas	Git & Github: Version Control You Need to Know	This workshop will be a hands-on introduction to Git, a version-control system for tracking changes in source code during software development. It is designed for coordinating work among programmers, but it can be used to track changes in any set of files. We will also be working with Github, a web-based hosting service for version control using Git.
